**Subject:** RE: Final Copper WER Report for Rayford Road...

Hi Mike,

As I mentioned, I reviewed the Rayford Road WER last week. It's acceptable, however, they calculated the final WER as an arithmetic mean rather than a geometric mean. I calculate final WERs of 5.67 (total copper) and 6.82 (dissolved copper). Please check my math and confirm or correct. Then I'll finalize the "approvable" letter from Phil C to Gregg E.
